Home Choice Companion Care is the best choice for professional in-home care for seniors. We provide affordable, dependable senior care services to our clients and families.

The quality of our caregivers makes the difference.

Guaranteed Compatibility

Home Choice knows the difficulty of having a caregiver come into your home. After all, in some cases, this will be the first time that this type of service is being provided. That is why we offer guaranteed compatibility to our clients. At your request, we will set up private interviews with several caregivers to insure a perfect match allowing for one caregiver for the entire shift as opposed to shuffling several people throughout the week.

Guaranteed Staffing

Once service has been provided for two weeks and you are satisfied with the permanent caregiver. Home Choice Companion Care will introduce a secondary caregiver. This gives the person an opportunity to learn the routine and meet the family. This process guarantees that you will never be without a caregiver or having a stranger knock on your door at an inconvenient time.

Peace of Mind for You

Caring for an aging loved one and managing the demands of your own life can be stressful and tiring. There's no need to go it alone. Let Home Choice Companion Care manage the daily care activities so you're free to enjoy quality time with your loved one.

Independence for Your Loved One

At Home Choice Companion Care, we specialize in providing quality in-home care for seniors. Whether they need us for a few hours a day or 24 hour care, we'll always provide the kind of compassionate, responsive care that lets them truly enjoy living independently at home.
